

Downloading eAudiobooks from Tennessee R.E.A.D.S. - Kindle Fire

You will need:

- A valid John P. Holt Brentwood library card
- Access to wi-fi for your device
- A Tennessee R.E.A.D.S. account (see below)
- The Overdrive app downloaded to your device (see below)

Initial App/Account Setup

1. Open the "Appstore" app and search, "Overdrive."
2. Select and download the app titled, "Overdrive: Library eBooks & Audiobooks."
3. When the app finishes downloading, open it to begin the initial setup process.
4. Tap on, "Have an Account? Sign In."
5. Tap on, "Sign in using library card."
6. In the search box type, "Buffalo River Region - Brentwood Library" (be sure to include the spaces before and after the dash), and then select the library from the list.
7. On the next page, find, "Brentwood Library," in the drop-down list and select it.
8. Enter in your library card number (The long number under the barcode).
9. Upon landing at the dashboard screen, you will see a large box in the top-left saying, "Add a title." Tap on this box.
10. In the search box, again type, "Buffalo River Region - Brentwood Library" (be sure to include the spaces before and after the dash) and select the library from the list.
11. Tap the star beside, "Tennessee READS," to save it. Then, tap directly on the link to open the Tennessee R.E.A.D.S. homepage.
12. Tap the sign in button towards the top.
13. From the drop-down menu, again, select, "Brentwood Library."
14. Enter in your library card number (The long number under the barcode) and tap "Sign In."
 - Be sure to tap the checkbox for "Remember my Card Number on this Device" so you will not have to reenter this information again in the future.

Searching for eAudiobooks

** eAudiobooks are distinguished from the regular eBooks by a little headset icon below the book cover.*

There are many ways to go about discovering new books or looking for a specific author/title.

- The search field at the top of the page allows you to search by Author or Title (more if you use filters)

- After tapping on the search field, a dropdown called, "Advanced" will appear to the right. Clicking on this will open the filters page and allow you to better narrow your search.
- Tap on the hamburger icon (three horizontal lines) in the top right for more options.
 - Click "Subjects" on the heading bar at the top to see a list of book genres.
 - Click "Collections" to locate different booklists based on topics, target audience, and format.

Checking out an eAudiobook

1. After locating an item you would like to check out, tap on "Borrow" below the book's cover image.
 - If it says, "Place Hold," you will be put in the Hold Queue. This queue can be quite long for new releases.
2. Where it says "Borrow for," click on the number of days (e.g. "14 days") to adjust when the item will be returned.
3. Click the large, "Borrow" icon.
4. You have now borrowed the item. You can access the item by going to your "Shelf" page (See the icon that looks like 3 books stacked together near the top of the homepage).
5. Overdrive does not automatically download the book. You will need to tap "Download MP3 audiobook" when checking out or on the Shelf page under Loans.
